

Empathy Map

Date	14 July 2026
Project Name	Automated Credit Card Application Screening
Maximum Marks	4 Marks

Empathy Map (Customer View)

This empathy map captures the mindset of a customer using the automated screening app. It highlights the transition from uncertainty to clarity through the use of SHAP explainability and real-time feedback.

SAYS	THINKS
• "Is this app secure enough for my income data?" • "I want an instant result, not a 'processing' screen." • "Explain why I was rejected so I can improve."	• "Maybe my employment duration isn't long enough yet." • "I hope the AI appreciates my high income levels." • "Why does the bank consider 'high risk' for my status?"
PERSONA NAME Aakash (Prospective Credit Card User)	
DOES	FEELS
• Inputs personal financial profiles into the Flask app. • Uses the Sandbox Mode to test different profiles. • Reads the feature importance (SHAP) charts.	• Curious about how the XGBoost model sees his data. • Empowered by the automated 'soft-decline' guidance. • Appreciative of the transparency in the screening process.
